

AADITYA

Haryana, India | +91 8307165924 | adityajaspal04@gmail.com | linkedin.com/in/aditya-jaspal/

PROFILE SUMMARY

Second-year B.Tech Computer Science student specializing in AI & Data Science with hands-on experience building full-stack and AI-driven applications, including Web3-based systems and ML-powered analytics platforms. Proven ability to lead teams in hackathons and deliver scalable solutions under tight deadlines. Interested in Data Analytics and Full Stack Development roles.

EDUCATION

Panipat Institute of Engineering and Technology (PIET)
B.Tech, Computer Science and Engineering (AI & Data Science)

Haryana, India
Expected: May 2028

Bright Scholar Senior Secondary School
Science Stream — Non-Medical

Haryana, India
Completed: 2024

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, C
Web Development: HTML, CSS, React, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code, Microsoft Excel
Core Skills: Data Analytics, Dashboarding, Problem Solving, Web Development

RELEVANT COURSEWORK

Database Management Systems | Operating Systems | Web Development | Python Programming | Artificial Intelligence

EXPERIENCE

Pickl.AI Remote
Data Analyst Intern 2024

- Assisted in data analysis tasks and gained practical exposure to real-world datasets and analytical tools.
- Applied basic data cleaning, visualization, and reporting techniques to support project deliverables.

Internship Training Program India
Trainee 2024

- Participated in a structured training program focused on programming fundamentals and software development practices.
- Completed assignments and exercises reinforcing core concepts in programming and web technologies.

PROJECTS

AgriChain Flutter, Firebase, Solidity, Web3
[agrichain-wheat.vercel.app](#)

- Developed a cross-platform agricultural supply chain platform enabling real-time data management and secure authentication.
- Implemented Solidity smart contracts on Ethereum/Polygon for decentralized asset tracking and transparent transactions.
- Integrated Web3 (Ethers.js) with Razorpay payments and DigiLocker-based KYC, creating a hybrid Web2 + Web3 system.

AgriScore Flutter, FastAPI, Python, ML
[agriscore-omega.vercel.app](#)

- Built an AI-powered agricultural land intelligence platform for credit risk assessment and land analysis.
- Designed a backend system integrating satellite (NDVI), weather, and soil data with ML models (Scikit-Learn).
- Developed a scalable data pipeline with Supabase and geospatial services (Google Maps) for real-time insights.

LEADERSHIP & ACTIVITIES

Hackathon Team Leader 2024 – Present

- Led cross-functional teams in hackathons, coordinating development and task distribution under tight deadlines.
- Collaborated on building end-to-end projects, contributing to ideation, development, and final presentations.
- Demonstrated leadership, problem-solving, and rapid prototyping in competitive environments.

ACTIVITIES & INTERESTS

Activities: Solo Traveling | Reading | Fitness & Strength Training

Interests: AI & Emerging Technologies | Building Digital Products | Startups & Entrepreneurship | Continuous Learning
